

MISSOURI WESTERN STATE UNIVERSITY

Math Pathways

Missouri Western State University offers **3 math pathways** based on students academic and career goals:

- Statistics Pathway
- Science, Technology, Engineering & Math (STEM)
- Quantitative Reasoning (QR)

Student placement into their math pathway is determined by ACT/SAT scores, then can be challenged by taking the Math Placement Exam. Please see <http://griff.vn/MPE> for information regarding the Math Placement Exam and placement.

Students are encouraged to consult with a **Missouri Western** Advisor to ensure the right math pathway is selected, especially for students transferring from a community college.

For more information, please contact the Student Success & Academic Advising Center at:
