Academic Advising Description/Definition

“Academic advising is an educational process that, by intention and design, facilitates students’ understanding of the meaning and purpose of higher education and fosters their intellectual and personal development toward academic success and lifelong learning.” (NACADA, 2004)

At Missouri Western State University, academic advising provides students with the opportunity to build a relationship with their advisor for the purpose of gaining assistance in planning their educational career, in learning the skills needed for academic success, and in learning how to access the variety of resources and

services available to them through Missouri Western.

Academic advising is a collaborative educational process based on mutual respect. Students and their advisors are partners in meeting essential learning outcomes, ensuring student academic success, and outlining the steps for achievement of the students' personal, academic, and career goals. Assistance with Issues Involving Disabilities

Missouri Western State University is dedicated to providing equal opportunity and access for every student. It is important that if you feel you need accommodations for a learning or physical disability that you make your advisor aware of these accommodations. In some cases, your advisor may refer you to the Accessibility Resource Center for assistance. The staff of the Accessibility Resource Center provides a broad range of supportive services in an effort to ensure that the individual needs of each student are met. In addition, the staff functions as an advocate for students with disabilities on the Missouri Western campus. Through active involvement with all areas of the University, the office is able to monitor conditions relevant to students with

disabilities and to provide help with decisions affecting their quality of life.
